

ПОТОЛКИ

ФОТОВИТРАЖИ
НАГАТТА
КАТАЛОГ РИСУНКОВ СЕРИИ А

Витражные потолки считаются одним из самых элитных видов отделки потолка, позволяющим не только изменять пространство помещения, но и вносить в интерьер живой рисунок. Потолок приобретает особый шарм, характер, настроение. С каждым днем такое решение отделки потолков становится все более популярным и востребованным.

Фотовитражные потолки – невероятно эффективный элемент интерьера, с помощью которого у вас открывается безграничный простор для фантазии. С помощью потолочных фото-витражей вы можете индивидуализировать свой интерьер, сделать его неповторимым.

Фотовитраж можно изготовить на основе ваших фотографий, любимых изображений, что придаст еще более личную атмосферу в помещении.

Фотовитражи изготавливаются по специальной технологии, которая основана на применении профессиональной полимерной пленки. На эту пленку дизайнер наносит заранее обработанное фотоизображение. Затем пленочный витраж наклеивается на обычное или акриловое стекло. С внутренней стороны печать дополнительно защищена пленкой на выбор из 3-х оттенков. Стандартный размер 595x595мм и 295x295 мм. Однако этот размер может варьироваться индивидуально.

Фотовитраж крепится на потолке при помощи стандартной подвесной системы, которая широко используется для подвесных потолков. Подвесная система «Гайпель» представлена в цветах: белый, серебро, золото. Подвесная система «Албес» представлена цветами: белый, металл, супер-хром, супер-золото. Также подвесная система может быть покрашена в любой цвет и даже под цвет дерева.

Помимо исключительно эстетических достоинств и безусловной эксклюзивности, фото-витражи – долговечный и устойчивы к воздействию различных разрушительных факторов. Фотовитражные потолки могут быть использованы в интерьере не только частного

дома или квартиры. Можно оживить интерьер, например, в детском театре или клубе, поместив фото сказочных героев, либо в детском саду – сказочных птиц и животных, цветы, солнышко.

Деловые/офисные и развлекательные центры, рестораны и кафе, казино и игровые залы, ночные клубы и дискотеки – запомнятся всем и каждому, если центром оформления интерьера дизайнер обозначит фотовитражный потолок. Рисунок, изображенный на нем, точно передаст чувства и настроения, придаст помещению нужную атмосферу, более полно раскроет назначение того или иного помещения.

Особенно удачно для оформления фотовитражными потолками подходят такие объекты, как студии красоты, спа-центры, бассейны и фитнес-клубы, флористические салоны цветов, магазины подарков и залы бракосочетания (ЗАГСы). Именно здесь очень уместно смотрятся фотовитражные потолки, так как никакой другой потолок так живо не отразит суть и предназначение интерьера.

Сегодня фотовитражные потолки заслуженно стали отличительным знаком в дизайне интерьера. На них обращают внимание, они запоминаются, ими оформляют все новые и новые объекты. Потолки с фотовитражами можно встретить уже в больничных холлах, в залах регистрации гостиниц, в домах отдыха, в пансионатах, и детских оздоровительных лагерях.

Что же говорить об оформлении наших квартир. Именно здесь так важно создать атмосферу комфорта и тепла. Выразить самого себя в интерьере кухни или ванной комнаты, холла, коридора, спальни или детской проще всего при помощи фотовитражей. Они придают новый вид даже балконным лоджиям и гаражам, добавляя в стандартные и, нередко, скучные интерьеры – индивидуальности.

Свобода самовыражения – всегда модно. А значит – фотовитражные потолки в интерьере помещений всегда будут актуальны и востребованы.
